
Announcing the Formal Launch of the Sierra Leone Supplement 2018

Freetown, 6th November 2018. The Ministry of Mines and Mineral Resources and the National Minerals Agency, will formally launch the Sierra Leone Supplement 2018 by the Mining Journal, on the 15th of November, 2018, at the Miatta Conference Hall, Youyi Building, Brookfields, Freetown, Sierra Leone.

The Supplement was formally launched on the 21st September and copies were distributed with the Mining Journal magazine to Mining Journal subscribers globally. The online supplement officially went live on 5th October 2018 and is generating huge interest. It can be viewed at: <https://www.mining-journal.com>

Initial reports from international investors, mining companies and interested parties, indicate that the Supplement is achieving its objective of raising awareness about Sierra Leone's rich mining potential; and unrivalled opportunities for investors in the country's vast mineral reserves.

The launch ceremony will be honouring the 5 mining companies, for their participation in the Supplement; an eloquent testimony of their commitment to the country; and the resilience and positive outlook of the Sierra Leone Mining Sector.

The Sierra Leone Supplement 2018 was produced by the Ministry of Mines and Mineral Resources in partnership with JIC Media and published by Mining Journal.
